## Department of Health Innovation Prasanna School of Public Health

# MASTER OF HOSPITAL ADMINISTRATION PROGRAMME

## Aim of the Programme

The Master of Hospital Administration Programme offered at the Department of Health Innovation strives to prepare health professionals to transform into knowledgeable, ethical and innovative health administrators who can contribute positively for the betterment of healthcare sector. The programme aims to create competent personnel in the field of healthcare in a professional manner to optimize care delivery and healthcare costs without compromise on quality. This is achieved through

- Strong methodological foundations with a touch of multi-disciplinary expertise
- Practical exposure in a hospital framework
- Inter-disciplinary research opportunities

## About us

The Department of Health Innovation seeks to evolve as a focal point for research and education leading to affordable and sustainable healthcare solutions to the diverse health challenges across the globe. Through excellence in teaching and research, the Department strives to infuse the necessary human capital to enhance the innovation capabilities and ensure that healthcare is “available” and “accessible” to every citizen of the country on a sustainable basis. Located at the serene knowledge hub of Manipal, the Department functions under the Prasanna School of Public Health.

## Programmes Offered
