Tropical Medicine Update-2016

Dear Delegates,

We, the faculty at the Departments of Microbiology & Medicine, K.M.C., Mangaluru in collaboration with Manipal McGill Centre for Infectious Diseases, Manipal cordially invite you for a day long CME - An update on Tropical Medicine on the 30th of November, 2016 at Kasturba Medical College, Mangaluru.

Key topics at the CME will include updates on newer diagnostics in parasitology and neglected tropical diseases. Join us and enrich yourselves at this academic feast!

CME HIGHLIGHTS

Key note speaker for the CME will be **Dr. Michael Libman**, the director of the Centre for Tropical Diseases, McGill University Health Centre, McGill University Division of Infectious Diseases, Consulting microbiologist at Nunavik. He specialises in infectious diseases and microbiology, especially the diseases that occur in travelers and immigrants and diseases occurring in Canadian far North

Programme Schedule

Time	Topic / Speaker
8.30 - 9.00 am	Registration & Breakfast
9.00-9.45 am	New technologies for old problems in parasite diagnostics: How will they help us? - Dr. Michael Libman
